

Water Well Owners Educational Event

TEXAS WELL OWNER NETWORK

RESOURCES HELP LANDOWNERS PROTECT GROUNDWATER

Monday, March 23, 2020
1 - 5 p.m.

Bandera County
River Authority &
Groundwater District Office
440 FM 3240
Bandera, TX

TEXAS WELL OWNER NETWORK PROGRAM

The Texas Well Owner Network (TWON) program is a free, educational training for Texas residents who depend on household wells for their water needs. TWON is for private well owners who want to become familiar with groundwater resources, septic system maintenance, well maintenance, water quality and water treatment. Private well owners are independently responsible for monitoring the quality of their wells. Essentially, they are the operators of their own water system and are responsible for ensuring that their water is safe.

BRING YOUR WELL WATER SAMPLES!

Well owners may bring water samples to the training to be screened for nitrate-nitrogen, total dissolved solids (TDS), and *E. coli* bacteria for \$10. Pick up approved sample containers with instructions at the Bandera County Texas A&M AgriLife Extension Office (2886 Highway 16 North, Bandera), or at the Bandera County River Authority & Groundwater District Office in Bandera (440 FM 3240).

Bring your samples and \$10 to the training on March 23.

Pre-register for the workshop at
<http://twon.tamu.edu/training/>
or call **979-845-1461**

Funding for the Texas Well Owner Network is through a Clean Water Act nonpoint source grant provided by the Texas State Soil and Water Conservation Board and the U.S. Environmental Protection Agency. The project is managed by the Texas Water Resources Institute, part of Texas A&M AgriLife Research, AgriLife Extension and the College of Agriculture and Life Sciences at Texas A&M University.
